WILLIAM M. EVARTS, Esq., one of the leading members of the NewYork Bar, while last, thrown from his horse and seriously i jured, his left collar bone being broken. I hopes, nevertheless, to be able to return to New York and resume his professional labors early in October. The accident was occa-sioned by a false step on the part of the horse, which precipitated the rider over his

REUTHE'S ANIMAL TRAP .- This invention, advertised in another column, speaks for itself; but as a specimen of the commendations it is receiving, we quote the following from the Hartford Daily Courant,-a compe-

RESUTTION PATENT ANIMAL TRAP.—This is an invention deserving some notice. When, some time since, we first heard of it, we were inclined to pass it by unobserved; as a new invention, in this pass it by unobserved; as a new invention, in this age, is an every-day occurrence,—especially in this country, the modern hot-bed of genius: but upon cless inspection and explanation received, we are ready to say, that as regards usefulness, it may be ranked with the Sewing Mashine, C-it's Revolving Pistols, and other inventions equally important. Let the hunter or trapper procure one, and be can possess himself of acc animal without the agt. Let the number of rapper procure one, and he can possess himself of any animal without the usual fatigue and danger connected with a hunting excursion, and another thing worthy of consideration, without minimize the slan of the animal. Place it in the hands of a farmer, or western sattler, and he can, rid his domains of those maranding visitors generally so decaded.

in Sioux City recently. The lawyer had a cane and revolver. The editor took both of them away from him and chased him around the black with his own weapons.

WIT 3m*

A CARD FROM DR. JAMES M.
JARRETT, of New York Lung Infirmary.—
Myconnection for the past eight years with the
above Institution, as Chief Physician, and a twelve
years course of steady devotion to the Care of
Pulmonary Consumption and its kindred diseases,
together with my unrivalled opportunities and advantage of pathological research—aided not a little by a perfect system of Medical Inholation—has
enabled me to arrive at a decisive, direct and successful course of treatment for the positive and
radical cure of all diseases of the Throat, Lungs,
and Air-Passages. By Inhalation, the vapor and
curative properties of medicines are directly addressed to the diseased organs and the integument.
I do not advise the use of Medical Inhalation of
any kind, to the exclusion of general treatment; do not advise the use of Medical Inhilation of any kind, to the exclusion of general treatment; and although I consider it a useful adjuvant in the proper management of those foorful and often that I discases, yet I deem it very necessary that acci pationt should have the benefit of both rearral and local treatment. The success of my treatment in the above diseases, and the high character of the Institution over which I have so longinal the honor to preside, are too well known to need any cology or comment from me. At the solicitation of many private and professional friends through whose pullanthropic and the above charity has been long and liberally supported, and I do not advise the use of Medical Inhalation of any kind, to the exclusion of general treatment; and although I consider it a useful adjuvant in the proper management of those fearful and often fatal diseases, yet I deem it very necessary that case, patient should have the benefit of both general and local treatment. The success of my treatment in the above diseases, and the high character of the Institution over which I have so long had the honor to preside, are too well known to need any calcar or comment from me. At the This invaluable medicine is unfailing in the cure of all those painful and dangerous diseases to which the female constitution is subject. It moderates all excess and removes all obstructions, and aspeedy cure may be relied on.

TO MARRIED LADIES it is peculiarly who entered the Infirmary, or who were able to visit me at my office. Hering therefore that the who entered the latimary, or who were able to visit me at my office. He ping therefore that the arrangement will give entire satisfaction, both to my professional brethren and the public. I would respectfully announce in conclusion, that I can now be consulted personally or by letter, on all discasses as above, and that the medicines, the same as in the Institution, prepared to suit each individual case, Inhaling Vapors, Medical Inhalers, &c. Sec., will be forwarded by express to any part of the United States or the Canadas. Thinks—My terms of treatment by letter are as follows, viz. \$12 per month for each patient, which will include medicine sufficient for one mouth's use; also, Inhaling Vapor and an Inhaling Apparatus. Payment as follows: So to be paid to Express Agent on receipt of the beart, Hysteries and Whites, these Pills will effect a cure when all other means have failed, and although a powerful remedy, do not contain iron, calomel, antimony, or anything hurtful to the constitution. 500 LBS. VERY CHOICE DRIED APPLES

their symptoms in full, can be treated as well by letter as by personal examination. Patients availing themselves of Dr. Jarrett's treatment may rely upon immediate and permanent relief, as he seldom has to treat a case over thirty days. Letters for advice promptly aswered. For further continuous of the continuous of particulars address.
JAMES M. JARRETT, M. D., No. 520 Broadway, cor. Twelfth St., N. Y. P.S.—Physicians and others visiting the city are respectfully invited to call at the Infirmary, where many interesting cases can be witnessed, and where our improved apparatus for the inhalation of medicated vapor can be seen and inspected.

TRIUMPHANT SUCCESS OF BUCHAN'S HUNGARIAN BALSAM

OF LIFE. THE GREAT ENGLISH REMEDY for Colds, Coughs, Asthma, and Consumption. READ THE FOLLOWING CERTIFICATE ! AT

REMARKABLE CURE OF A YOUNG LADY
IN HOPELESS CONSUMPTION.

Featract of a letter from MysSarah J. Baxten
Pearl street.

Bestor. Feb. 12, 1848.

To Dr. D. F. Bradles;
Dear Sir.—The Hungarian Balsam
has performed a miraole indeed, in the case of my
youngest daughter, who has been positively cured
of seated Consumption, by the use only three bottles of this inestimable Medicine. She had been be
a decline for nearly three years, and we considered
her beyond all hope, when the Balsam was taken.
We had consulted numerous distinguished physicians, and tried all the famous prescriptions for
Consumption.—a southern journey, the new system of Inhalation, &c.—without any apperain
benefit, and had almost consigned her, with a
breaking heart, to the grave. But the Hungarian
Balsam, under Providence, has saved her life, and
I cannot refuse to give you my evidence of this
autonishing fact, for the benefit of those who may
be similarly afflicted. In my estimation there
cannot be a more painful spectacle, than that of an
intelligent and beloved child, sinking day by day
under this dreadful malady, with ne hope of reHef and dropping into the grave at last, at the
very days of life, while even the levelines of the under this dreadful maindy, with he done of the life and dropping into the grave at last, at the very dawn of life, white even the loveliness of the unfortunate victim renders her condition more ter-rible to all beholders. Your grateful friend, Sanan J. Baxren. Sole Proprietor, DAVID F. BRADLEE
